

2nd Greek Telegraphy Club (G.T.C.) CW Cup

Aim of the contest: To work members of the Greek Telegraphy Club (G.T.C.) in CW mode and to promote CW mode to the Radio Amateur community

Contest Period: Saturday, 6 October 2012 - 12:00UTC until Sunday, 7 October 2012 - 12:00UTC

Modulation: Exclusively CW (A1A)

Συχνότητες λειτουργίας: 80m (3.520Mhz – 3.530Mhz)

40m (7.020Mhz – 7.030Mhz)

20m (14.030Mhz – 14.060Mhz)

15m (21.030Mhz – 21.060Mhz)

10m (28.030Mhz – 28.060Mhz)

The above working bandwidths are recommended by the G.T.C. , but all CW QSOs in accordance with the official band plans will be considered valid

Categories:

- A.** SOAB (Single Operator, All Bands, regardless of power output to the antenna input)
- B.** SOAB/QRP (Single Operator, All Bands, power output to the antenna input limited to 5W PEP). Stations participating in this category are obliged to send **/QRP** after their callsign (e.g. SV5DKL/QRP). In different case, their logs will be automatically transferred to category A.

RST: **G.T.C. Members:** RST + GTC + 3-digit member number (e.g. for QSO of G.T.C. member nr. 28 the sent report should be 599 GTC 028)

Non-members : RST + NM (Non-Member)

Who to work: Everyone may work everyone, but just once per each band. Participating members of the G.T.C. should take part under their own callsign and not under any special callsign. A G.T.C. special club station will be on-air during the event, under the callsign **SZ1GTC** and member number G.T.C. 1000

QSO Points: QSOs with **SZ1GTC Club Station** : 100 points

QSOs with **G.T.C. members** : 10 points

QSOs with **non-G.T.C. members** : 1 point

Multipliers: Each QSO with a G.T.C. member per band counts for one (1) multiplier. For instance, if you work the same G.T.C. member in three (3) different bands, then this counts for three (3) multipliers

Total Score: The total score is calculated by the sum of QSO points (as described above) multiplied by the multiplier total

Log submission: Electronic logs of your participation should be e-mailed at latest by 30 October 2012 to the European Communications Manager of G.T.C. , Stathis Maliakis - SV5DKL to the following e-mail address: sv5dkl@rho.forthnet.gr

At the <Subject:> field of your e-mail you must write the callsign used as well as the category of participation (A ή B). For instance, SV5DKL - Category A

Valid logs will be considered those that will have been received up to the above mentioned date and that will be fully completed (the logs should contain at least the following data for each QSO: Date, UTC, Callsign, Band, Mode, RST sent, Member No. sent, RST received, Member No. received).

QSOs that will not be verified during the cross-checking process from the submitted logs of the two correspondents, will not be considered valid. For that reason, all participants are encouraged to submit their participation logs in time, even if they have made a small number of QSOs.

There is no special software developed yet for logging GTC CW Cup QSO data, so logs of the following formats will be accepted:

ADIF, Cabrillo , .csv , .xls , .txt , .dat (dBase) , .wl (Writelog for Windows).

Also, hand-written logs sent by mail with postal signature up to 30 October 2012 will be accepted, as long as they, too, contain at least the required data mentioned above for each QSO

All hand-written logs should be mailed to the following address:

Efstathios Maliakis, SV5DKL, 2, G. Georgiadi str., GR-85100, Analipsi, Rhodes, Greece.

All submitted logs must clearly mention the details of the participating station (Callsign, Name/Surname of the station's licensee and postal address) as well as the following sentence:

"I hereby state responsibly that my participation to the 2nd G.T.C. CW Cup is fully complied with the rules and conditions set by the G.T.C. CW Cup committee and with the permissions and restrictions defined for my station's radio amateur license. Furthermore, I will wholeheartedly accept the results and decisions of the 2nd G.T.C. CW Cup Committee"

Regardless of the scores stated in the submitted logs, the GTC CW Cup Contest Committee will recalculate the scores of every submitted log, after removal of QSOs that will not be

verified during the cross-checking process. All submitted logs will be freely available at
